EXCLUSIVE KPSC MAINS ONLINE TEST SERIES

**NAMMAKPSC
QUALITY
ASSURANCE**

WWW.NAMMAKPSC.COM

Now that the prelims is done surely most of you are busy partying and patting yourself on the back. But the war isn't over yet.

Also few of you might be on the borderline cutoff and confused about further preparation. Our honest advice – start preparing than be late (don't lose an opportunity in case you clear)

KPSC is in coming at you in full swing. Mains exams are from November 28th. For success in mains you need to be well prepared way ahead of others. So here we are with NammaKPSC mains Test series 2017

Our programme includes

- Online test series - We provide you questions papers and sample answers periodically over a period of 2 months.
- These are a set of 14 test papers to help you practice answer writing as well as complete the syllabus in a systematic and comprehensive manner.
- We will ensure that the tests cover the entire syllabus and are of KPSC mains standards.
- The test series consists of 7 sectional tests, 2 essay tests and 5 comprehensive papers.
- The GS papers will be divided into parts in the sectional tests to ensure coverage of the syllabus in more detail. The comprehensive tests will be similar to the GS papers in the mains exams. The syllabus for each of these tests is given under.
- The timetable for the tests is as under. It will start from 3/9/2017 and end on 8/11/2017.
- The test papers will be uploaded every Sunday and the sample answers on Wednesday.

Our advice is for you to complete the syllabus according to the test timetable. Keep one source for your primary reading and later if time permits you can refer to the others. There's ample time for each test and the sample answers will help you fine tune your answer writing skill.

This programme does not include the following

- No Evaluation of test papers. It's based on self-evaluation on the lines of sample answers we provide
- No separate class discussion of tests
- No physical copy of the test paper is sent to you

Here a few general suggestions you need to follow for good answer writing

Instructions

1. **Word limit-** Stick to the word limit. **QUALITY IS MORE IMPORTANT THAN LENGTH OF THE ANSWER.** So practice writing as concisely as possible
2. Try to attempt all questions. But remember, your answer fetches you marks only if it's relevant to the question.
3. **Key words**

1. Define – Clearly explain the meaning of the word or phrase in simple terms.

Define global warming

A gradual increase in the overall temperature of the earth's atmosphere generally attributed to the greenhouse effect caused by increased levels of carbon dioxide, CFCs, and other pollutants

2. Describe – here go to the details of the topic.

Describe the effects of global warming

A gradual increase in the overall temperature of the earth's atmosphere generally attributed to the greenhouse effect caused by increased levels of carbon dioxide, CFCs, and other pollutants

The **effects of global warming** are the environmental and social changes caused (directly or indirectly) by human emissions of greenhouse gases.

Environmental changes

- Oceans –the effects on oceans include Acidification, Oxygen depletion, Sea level rise, Ocean temperature rise etc (similarly a single line for others)
- Temperature changes
- Effects on weather
- Extreme weather
- Cryosphere

Effect on Social systems

- Food supply
- Droughts and agriculture

- Health
- Water resources
- Migration and conflict

Benefits of global warming

- CO2 fertilisation effect
- Human health
- Ice-free Northwest Passage
- Animal population change

3. Explain- in simple words any given topic should be explained with suitable examples and data(facts) if available

Explain the impact of global warming.

- Same above information but add examples like arctic ice melting or continuous droughts in India etc

4. Discuss – go a step after describing simple terms and add the pros and cons/ advantages and disadvantages/ for and against argument for the topic being asked. Further remember to conclude or give your opinion

Discuss the impacts of global warming.

- with Define GW,
- Impact on Hydrosphere, atmosphere, lithosphere
- How far all these are happening, quote IPCC reports,
- and any reference to opposite impact- beneficial
- conclude your opinion

5. Write a note – a generic key – try and be as comprehensive as possible. Define it, add its uses or significance, advantages and disadvantages, recent event if related to the topic, some suggestions or way forward if relevant

Write a note on global warming.

- Can add any recent report, summits(UNFCC), India related measures and few suggestions if possible to above info

6. Critically analyse- basically it means analyse in detail. So break the topic into various parts. Each parts should be analysed in detail – give arguments, pros and cons and evidence for each. Finally link all parts and summarise

Critically analyse the impact of global warming

- Focus here is wrt final summarising and linking of parts. Your analysis about global warming

7. Critically Evaluate or evaluate – “place a value to it”- meaning look at the given statement and say how far its true or false with evidence for respective arguments. Finally take a stand or opinion about the topic and justify your stand.

Critically evaluate the measures being taken to address global warming

- Eg UNFCC and Kyoto, how far is its successful etc, your opinion
